

We bring passion,
science and innovation
together to transform
people's health

Faes Farma is a Spanish pharmaceutical company committed to health since 1933

With over 90 years of experience and strong international growth, we investigate, develop, produce, and market our products guided by three core values:

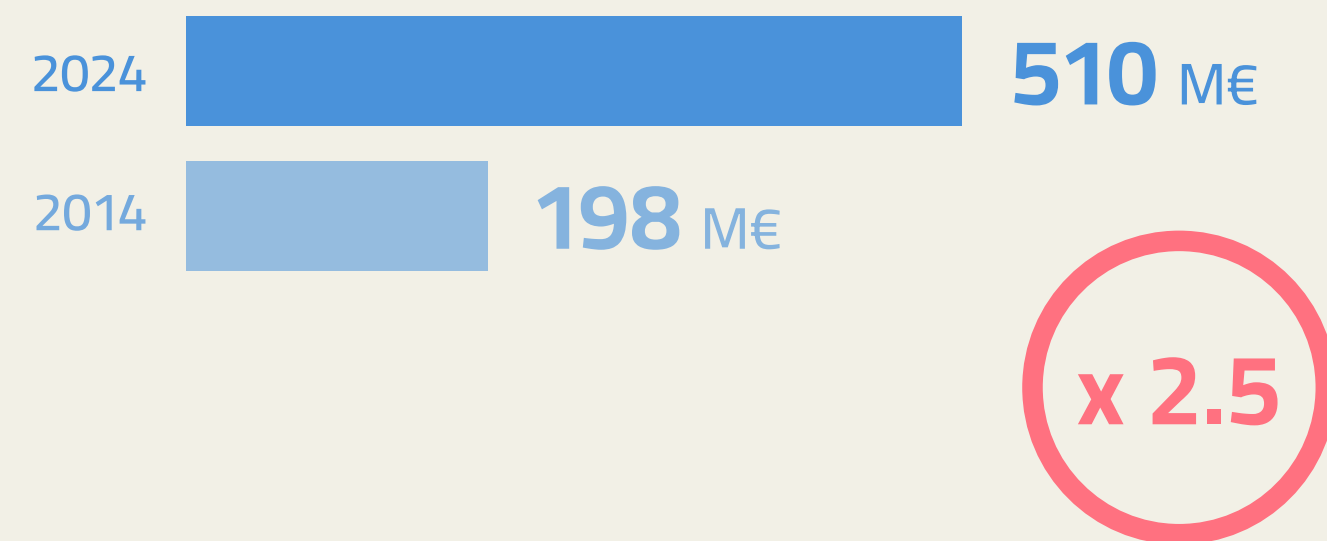

Excellence
Quality
Endeavour

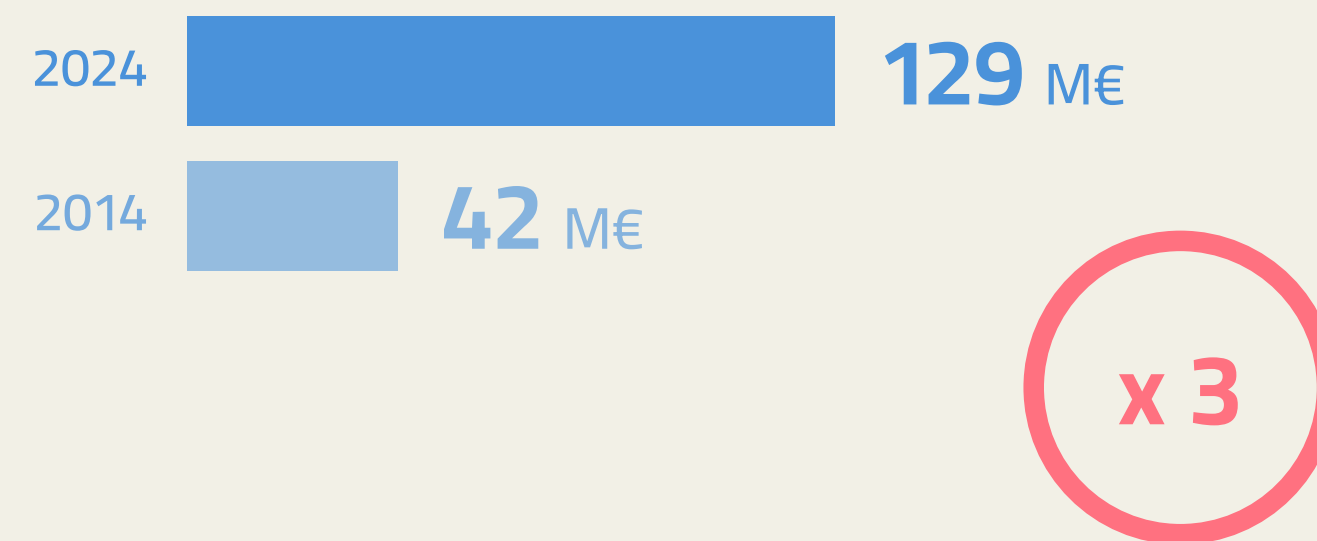

In the last decade, we have multiplied our results:

Revenue

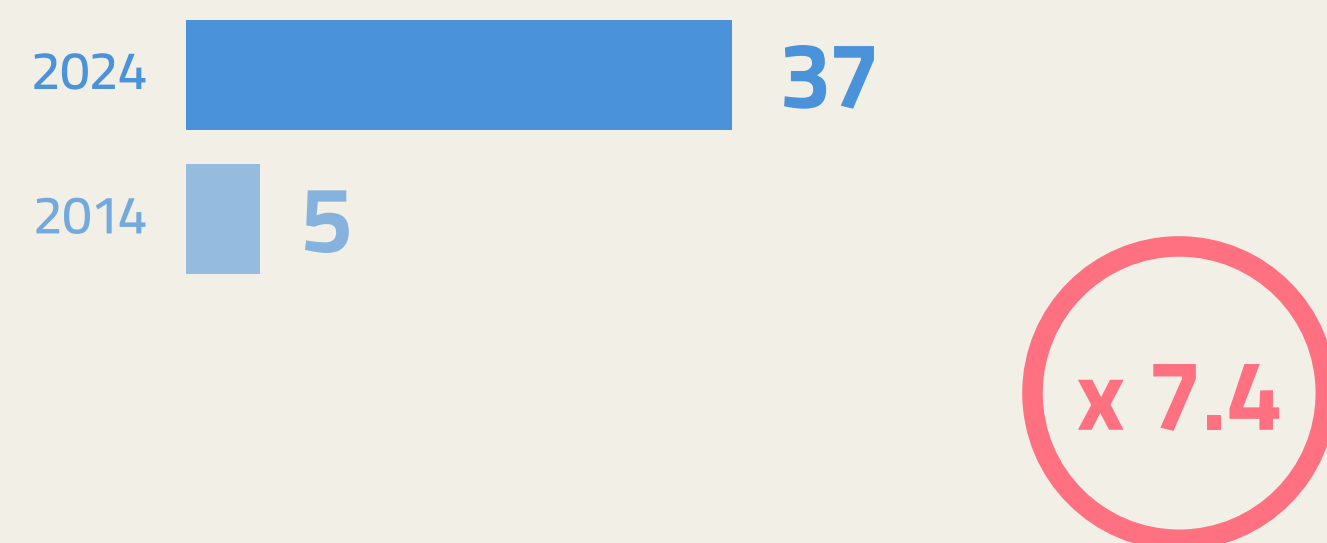

EBITDA

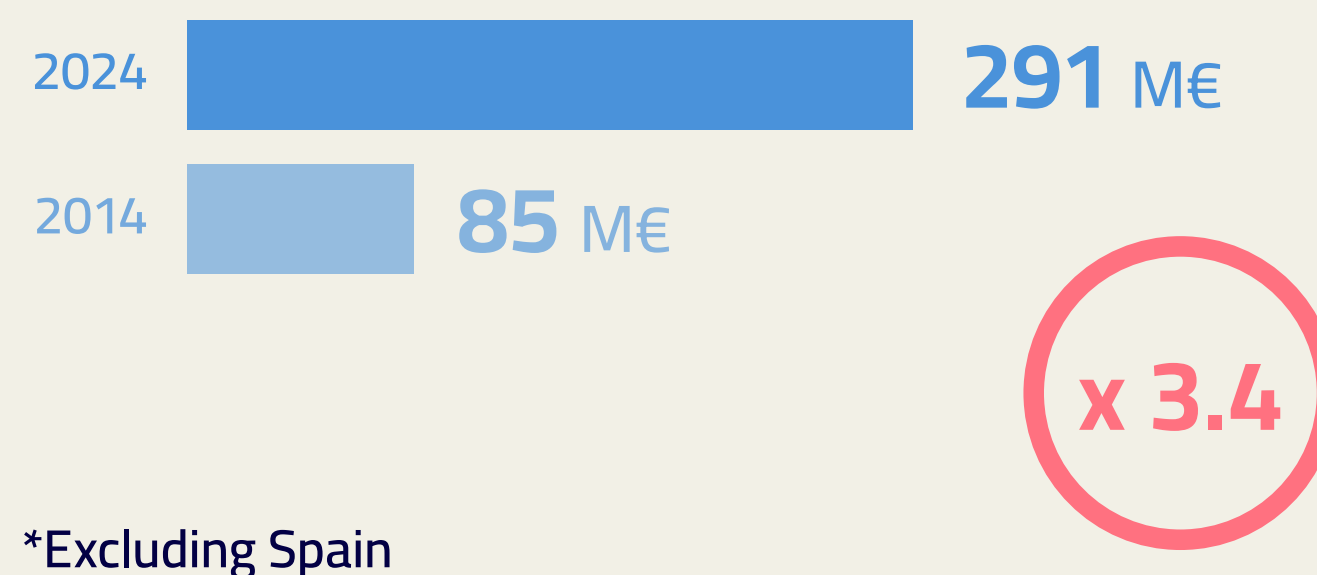

Net profit

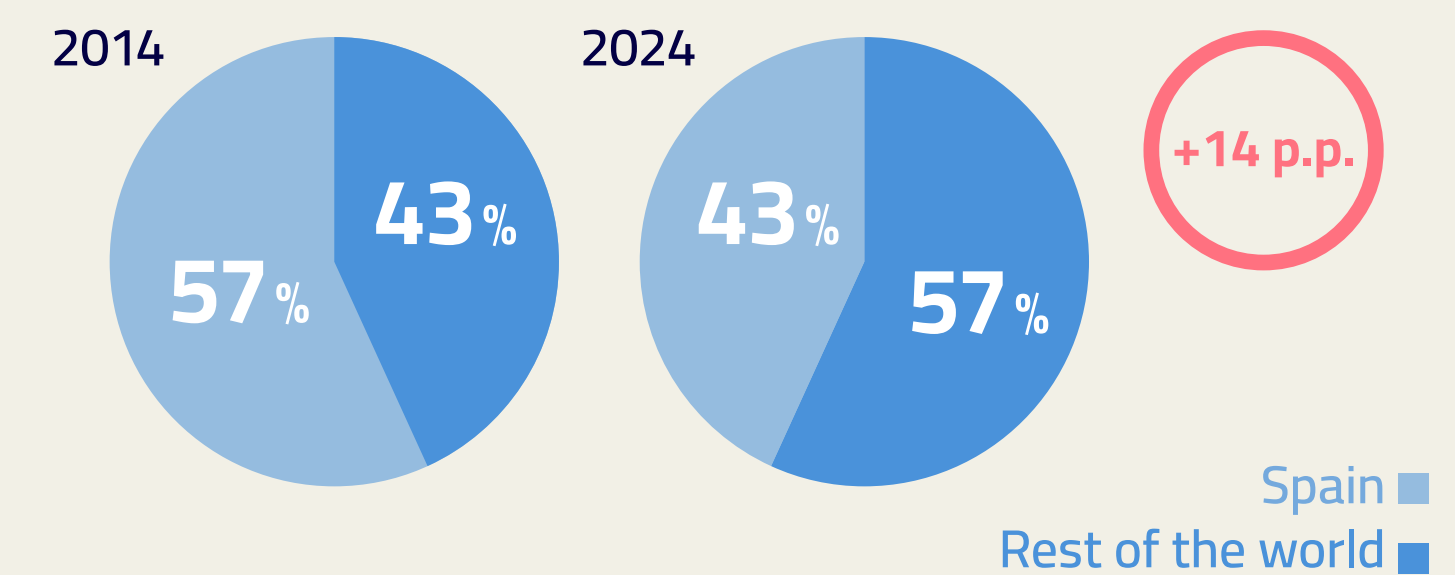

Partners

Revenues rest of the world

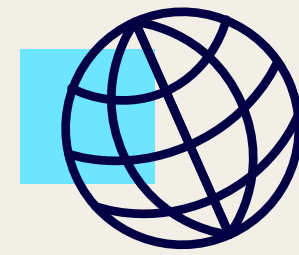

Revenues by geography

Faes Farma at a glance today:

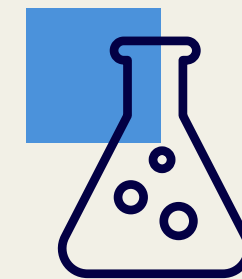

We are a global company with solid foundations, a diversified structure, and a clear international vision, ready for further growth

Global reach

An international presence through local structures and strategic agreements

Present in **+130 countries**, with **11 subsidiaries**, **8 production plants**, and **37 partners licences out**

Consolidated portfolio

Diversified portfolio and high-demand specialities

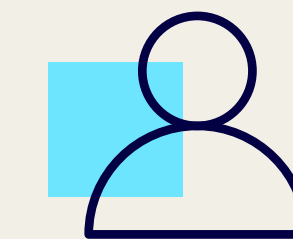

Our **top three molecules** account for **44% of pharma sales**

Solid financial base

Consistent results as the engine for expansion and development

90% of our revenue comes from **pharma**, and **10%** from **animal nutrition**

Human capital

A committed, diverse team with a clear global outlook

We are **1775 professionals**; **54%** are **women** and **52%** are part of **international teams**

We are a global company with an international presence

Our products are present in **more than 130 countries** around the world

Respiratory system

NasoFaes Fluid+

Hypertonic marine solution with surfactant agent that reduces mucus viscosity and facilitates its elimination. It's an adjuvant treatment for allergic rhinitis, nasal congestion, common flu, sinusitis and rhinofaringitis.

Active ingredients: Hypertonic marine solution with surfactant agent. Pack size: 100 mL (other formats can be available under demand)

NasoFaes Triple Action

Isotonic marine solution with hyaluronic acid that repares, protects and moisturizes damaged nasal mucus.

Active ingredients: Isotonic marine solution with hyaluronic acid. Pack size: 30 mL

CalmaDOL

Relief of pain and itching in the external ear canal.

Active ingredients: Glycerol and lidocaine (0,5%)
Pack size: ear solution (7 g)

SinusOL+

Symptomatic treatment of rhinosinusitis and rhinitis that opens and drains the sinuses with hyperosmotic power of immediate effect, thus reducing intrasinusal pressure and facial pain.

Active ingredients: Glycerol and polymers (naturally occurring tannins). Pack size: 15 mL solution for nasal administration

Taponox

A water-based cerumenolytic ear spray that moisturises and promotes the fragmentation of accumulated earwax¹, making it easier to remove.

Active ingredients: Hydrogen peroxide
Pack size: 45 mL solution for ear administration

Bilaxten tablets

The latest antihistaminic oral tablets for the symptomatic treatment of urticaria and allergic rhinoconjunctivitis.

Active ingredients: Bilastine 20 mg
Pack size: 10, 20 and 30 tablets. ATC: R6A

Bilaxten ODT

The latest antihistaminic oral dispersible tablets for the symptomatic treatment of urticaria and allergic rhinoconjunctivitis.

Active ingredients: Bilastine 10 mg
Pack size: 20 orodispersible tablets. ATC: R6A

Bilaxten oral solution

The latest antihistaminic oral solution tablets for the symptomatic treatment of urticaria and allergic rhinoconjunctivitis.

Active ingredients: Bilastine 2,5 mg/mL
Pack size: 120 mL oral suspension. ATC: R6A

Drenoxol ampoules

Decreases the viscosity of bronchial secretions and facilitates expectoration.

Active ingredients: Ambroxol 30 mg / 10 mL
Pack size: 20 plastic ampoules of 10 mL each. ATC: R5C

Drenoxol bottle

Decreases the viscosity of bronchial secretions and facilitates expectoration.

Active ingredients: Ambroxol 3 mg/mL
Pack size: 200 mL syrup. ATC: R5C

Yendol N

Symptomatic relief of flu and cold symptoms (pain, headache, lacrimation, sneezing).

Active ingredients: Paracetamol 650 mg, Caffeine 25 mg, Chlorphenamine 4 mg. Pack size: 10 sachets. ATC: R5X

Fludan Codeina

Symptomatic treatment of unproductive cough in adults and children over 12 years of age.

Active ingredients: Codeine Phosphate 10 mg / 5 mL
Pack size: 200 mL bottle. ATC: R5D

Bronquidiazina

Treatment of respiratory system infections.

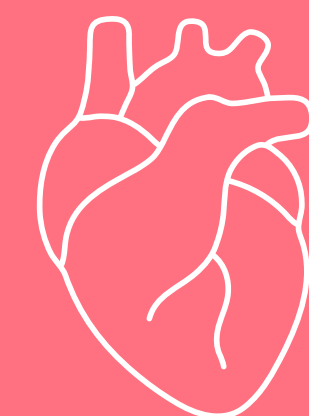

Active ingredients: (per 7,5 mL): Thrimetoprim 80 mg;
Sulfamethoxazole 400 mg; Bromhexine HCl 4 mg;
Sodium benzoate 250 mg; Tolu balm.
Pack size: 150 mL oral suspension. ATC: R05

MelProtect

Treatment of dry and productive cough. Moisturizes, lubricates and protects the mucosa of the upper respiratory tract, thus relieving irritation.

Active ingredients: Fructose, purified water, honey, calendula dry extract, marshmallow dry extract, greater plantain dry extract, mallow dry extract, propolis dry extract, elderberry dry extract, citric acid, eucalyptus essential oil, xanthan gum, potassium sorbate and sodium benzoate. Pack size: 180 mL oral solution.

Circulatory system

Venosmil capsules

Vasoprotective and venotonic indicated for chronic venous insufficiency.

Active ingredients: Hidrosmine 200 mg
Pack size: 20 and 60 capsules. ATC: C5C

Venosmil gel

Gel indicated for the relief of symptoms related to mild venous insufficiency of the lower extremities.

Active ingredients: Hidrosmine 20 mg/g
Pack size: 60 g tube. ATC: C5B

Locomotor system

Cannaben

Provides a quick sensation of relief and comfort to the skin.

Active ingredients: High concentration Cannabidiol (CBD), Rosemary essential oil and Arnica extract, with Neossance® Squalane oil for greater release of CBD into the skin. Pack size: 60 mL and 120 mL cream

Cannaben Forte

Provides a quick sensation of relief and comfort to the skin, with a long-lasting effect to continue with daily activity and maintain sports activity.

Active ingredients: High concentration Cannabidiol (CBD), Rosemary essential oil and Arnica extract, with Neossance® Squalane oil for greater release of CBD into the skin. Pack size: 60 mL and 120 mL cream

Arnidol gel stick

Cools and sooths the skin, taking the “ouch” out of children’s knocks and bumps.

Active ingredients: Arnica (Arnica montana), Harpagofito (Harpagophytum procumbens), Water, Alcohol, Triethanolamine and Carbomer. Pack size: 15 g gel stick

Arnidol pic

Exclusive combination of 7 natural active ingredients synergistically to provide an immediate refreshing sensation and quickly relieve the discomforts of irritated skin, especially after contact with insects.

Active ingredients: Arnica montana, Boswellia, Calamine, Aloe vera, Sage, Calendula officinalis, Echinacea angustifolia. Pack size: 15 g gel stick

Sasulen gel

Local relief of pain and mild and occasional local inflammation.

Active ingredients: Piroxicam 5 mg/g
Pack size: 60 tube. ATC: M2A

Dolotren injectable

Short-term treatment for acute inflammatory and painful post-traumatic and postoperative conditions.

Active ingredients: Diclofenac sodium 75 mg / 3 mL
Pack size: 6 and 100 ampoules of 3 mL each. ATC: M1A

Dolotren suppositories

Short-term treatment for acute inflammatory and painful post-traumatic and postoperative conditions.

Active ingredients: Diclofenac sodium 100 mg
Pack size: 12 suppositories. ATC: M1A

Dolotren capsules

Short-term treatment for acute inflammatory and painful post-traumatic and postoperative conditions.

Active ingredients: Diclofenac sodium 100 mg
Pack size: 20 extended release capsules. ATC: M1A

Dolotren dispersible

Short-term treatment for acute inflammatory and painful post-traumatic and postoperative conditions.

Active ingredients: Diclofenac 46,5 mg
Pack size: 40 dispersible tablets. ATC: M1A

Dolotren gel

Short-term treatment for acute inflammatory and painful post-traumatic and postoperative conditions.

Active ingredients: Diclofenac diethylammonium 1,16 g
Pack size: 60 g tube. ATC: M2A

Dolotren tablets

Short-term treatment for acute inflammatory and painful post-traumatic and postoperative conditions.

Active ingredients: Diclofenac sodium 50 mg
Pack size: 20 gastro resistant tablets. ATC: M1A

Distem

Muscle relaxant that relieves pain and stiffness of muscles and serves as treatment for painful muscle spasms.

Active ingredients: 380 mg Methocarbamol; 300 mg Paracetamol. Pack size: 50 tablets. ATC: M3B

Disfor

Short-term treatment of pain and muscle spasm caused by injuries such as sprains and strains.

Active ingredients: Methocarbamol 500 mg
Pack size: 20 tablets. ATC: M3B

Dermatology

Positon cream

Combination of a corticosteroid, an antifungal and an antibiotic indicated for the treatment of dermatological conditions.

Active ingredients: Triamcinolone acetonide 100 mg;
Neomycin 250 mg; Nystatin 10,000,000 IU
Pack size: 30 g tube. ATC: D7B

Positon ointment

Combination of a corticosteroid, an antifungal and an antibiotic indicated for the treatment of dermatological conditions.

Active ingredients: Triamcinolone acetonide 100 mg;
Neomycin 250 mg; Nystatin 10,000,000 IU
Pack size: 30 g tube. ATC: D7B

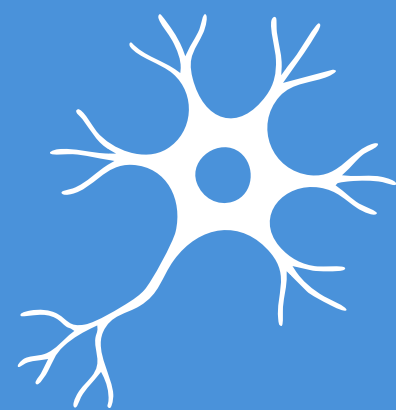

Alergical

Combination of 2 corticosteroids for topical use indicated for inflammation reduction and dermatological allergic reactions.

Active ingredients: Bathametasone 0,5 mg/g; Flucnolone acetonide 0,1 mg/g. Pack size: 30 g tube. ATC: D7X

Nervous system

Sinergina

Treatment of epilepsy in different clinical manifestations as: Generalized tonic-clonic seizures; Complex partial crises; Treatment and prevention of seizures in neurosurgery.

Active ingredients: Phenytoin 100 mg
Pack size: 100 tablets. ATC: N3A

Trausan drops

Treatment of neurological and cognitive disorders associated with strokes and head injuries.

Active ingredients: Citicoline 100 mg/mL
Pack size: 50 mL oral solution. ATC: N6C
Other oral presentations: citicoline 1.000 mg/mL in 10-sticks (10 mL) pack

Trausan injectable

Treatment of neurological and cognitive disorders associated with strokes and head injuries.

Active ingredients: Citicoline 500 mg
Pack size: 10 ampoules of 2 mL. ATC: N6C

Panaxmax

Symptomatic treatment of pain of mild or moderate intensity. Paracetamol analgesic effect is enhanced by the action of codeine and caffeine.

Active ingredients: Paracetamol 500 mg; Caffeine 30 mg; Codeine phosphate 10 mg. Pack size: 20 tablets. ATC: N2B

Surmenalit

Synthetic derivative of vitamine B1 or thiamine, indicated for the treatment of asthenic syndromes, and in those cases in which an activation of the memory or of creative abilities is required.

Active ingredients: Sulbutiamin 200 mg
Pack size: 30 coated tablets. ATC: A11D

Plenur

Prophylaxis and treatment of bipolar disorders. Treatment of recurrent major depression.

Active ingredients: Lithium carbonate 400 mg
Pack size: 100 modified release tablets. ATC: N5A

Ethosuximide Faes

Indicated in rudimentary forms of epilepsy, called petit mal.

Active ingredients: Ethosuximide 250 mg
Pack size: 30 capsules. ATC: N3A

Analgiplus

Combination of analgesics for pain treatment.

Active ingredients: Paracetamol 500 mg; Codeine phosphate 30mg. Pack size: 20 tablets. ATC: N2A

Digestive and metabolic system

Hidroferol

Treatment and prevention of vitamin D deficiency.

Active ingredients: 0,266 mg calcifediol; 15.960 IU of vitamin D. Pack size: 1, 3, 5 and 10 softgel capsules ATC: A11C

Dynamogen

Appetite stimulation and energy activation.

Active ingredients: Glutodine® (alfa-cetoglutarate cyproheptadine) 3 mg; Aspartate arginine 1g. Pack size: 20 plastic ampoules of 10 mL each. ATC: A15A

Defal 6 mg

Glucocorticoid with anti-inflammatory and anti-allergic properties, with less mineralocorticoid and glucocorticoid effects.

Active ingredients: Deflazacort 6 mg
Pack size: 20 tablets. ATC: H2A

Defal 30 mg

Glucocorticoid with anti-inflammatory and anti-allergic properties, with less mineralocorticoid and glucocorticoid effects.

Active ingredients: Deflazacort 30 mg
Pack size: 10 tablets. ATC: H2A

Defal drops

Glucocorticoid with anti-inflammatory and anti-allergic properties, with less mineralocorticoid and glucocorticoid effects.

Active ingredients: Deflazacort 22,75 mg/mL
Pack size: 13 mL oral suspension. ATC: H2A

Actimag

Indicated for magnesium deficiency.

Active ingredients: Magnesium Pidolate 0.4 g/mL
Pack size: 200 mL bottle. ATC: A12C

Ferroprotina

Prophylaxis and treatment of ferropenic anaemia and other iron-deficiency conditions.

Active ingredients: Ferrimanitol ovoalbumin 300 mg (equivalent to 40 mg of ferric iron)
Pack size: 30 sachets monodose. ATC: B3A

Desarrol

Geriatric and pediatric restorative tonic and appetite stimulant.

Active ingredients: Cyproheptadine 50 mg/mL; Carnitine 50 mg/mL; Arginine Aspartate 25 mg/mL
Pack size: 200 mL bottle. ATC: A15A

 Salcrozine tablets

Treatment of inflammatory bowel disease (ulcerative colitis and Crohn's disease).
Active ingredients: Mesalazine 500 mg and 1 g
Pack size: 100 tablets. ATC: A7E

○ Arcid

+ **Salcrozine** suppositories

(ulcerative colitis and Crohn's disease).
Active ingredients: Mesalazine 500 mg and 1 g
Pack size: 12 and 100 suppositories. ATC: A7E
Other rectal presentations: mesalazine 1 g rectal
foam (14 applications)

 **Magne Zero**

+ **Potenciator**

Prevention and treatment of amino acid deficiency states.

Active ingredients: Aspartate Arginine 5 g. Pack size: 20 plastic ampoules of 10 mL each. ATC: A16A

△ **Magne Vitality**

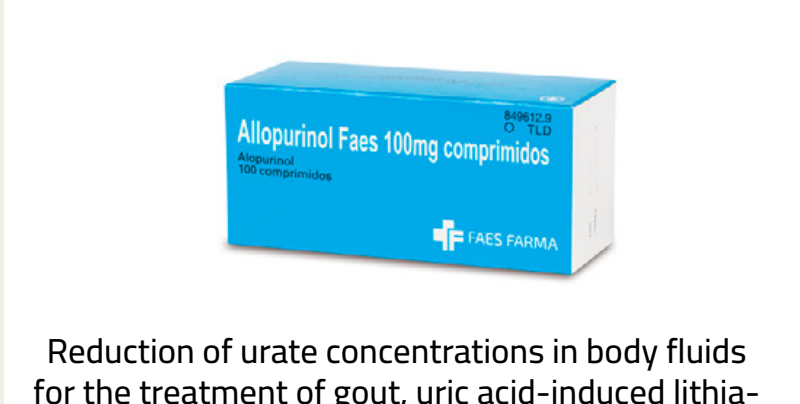

Disflat

which aerophagia or flatulence occur.
Active ingredients: Dimeticone 80 mg; Pancreatine equivalent to 6.000 units of amilase Eur. Ph.; Lipase equivalent to 6.000 units of protease Eur. Ph.
Pack size: 50 coated tablets. ATC: A9A

 **Magne Sport**

Allopurinol Faes

Active ingredients: Allopurinol Pack size: 100 mg in packs of 25, 30 and 100 tablets. 300 mg in packs of 30 mg. ATC: M4A

 **GlucUp**

Hemorrhane

inflammation associated with hemorrhoids in adults.

Active ingredients: Hydrocortisone acetate 11,16 mg (equivalent to hydrocortisone 10 mg)

Pack size: 30 g tube rectal ointment. ATC: C5A

○ Arcid

stomach pain, chest pain, dry cough.

Active ingredients: Calcium carbonate, sodium bicarbonate, patented naturally derived Galactomannan, Malva sylvestris, Hyaluronic acid

Pack size: 12 & 24 solution sticks and tablets

 Magne Zero

**For people in a situation of hypomagnesemia
and need a greater supply of magnesium.
Sugar free.**

Active ingredients: Magnesium pidolate 2.000 mg/10 mL
Pack size: 20 plastic ampoules of 10 mL each

 Magne Vitality

Active ingredients: Magnesium pidolate; Vitamins A, D, E, K, C; Vitamin B group; Iron; Copper; Manganese Zinc; Molybdenum; Selenium; Calcium; Phosphorous.
Pack size: 30 capsules

△ **Magne Sport**

For people who desire to enhance their athletic performance.

Active ingredients: Magnesium pidolate 112,5 mg;
Ubiquinol 50 mg; Folic acid 400 g; Vitamine C 120 mg;
Vitamin B group. Pack size: 30 capsules

 GlucUp

Specific solution that provides quick and easy solution for low glucose levels.

Active ingredients: Glucose 15 g
Pack size: Sticks of 30 mL

Faes Farma is positioned as a leading group in **ophthalmology**

Increased international footprint

Presence in over 60 countries and direct presence through subsidiaries in: France, Romania, Mexico, Turkey and Mozambique

Focus on added-value products

Own ophthalmology R&D program with recent relevant outcomes such as Akantior (Acanthamoeba keratitis indication)

With the recent acquisitions of the **EDOL** (Portugal) and **SIFI** (Italy), we are consolidating a broad and comprehensive portfolio with **wide coverage of ophthalmological indications:**

Our strategic plan 2025-2030 is built on **four key pillars**:

Driving growth

Strengthening international presence, licensing agreements, and M&A strategies.

Scientific leadership

R&D&I focused on four key therapeutic areas, with strategic levers for the development of new molecules and products.

Commercial and operational excellence

Optimization of data and technology use, with greater and more autonomous production capacity thanks to the new plant in Derio.

Positive impact

Culture, team, and sustainability are our key differentiating values.

2025-2030: Focus on adding differentiation to our portfolio

Indication	Launch expected in:	2025	2026	2027	2028	Status
Allergies	Bilastine ophthalmic paediatric					In registration phase
	Bilastine 10 mg <6 years					In registration phase
	Parenteral Bilastine					Registered project
	Bilastine stick pack paediatric					Presentation of dossiers
Gastro intestinal	Claversal tablet 1.5 g					Presentation of dossiers
	Claversal range of granules					In registration phase
	Mesalazine powder (Azzasol)					Pharmaceutical development
Vit. D and Bone	Calcifediol weekly					Registered project
	Alendronate liquid stick pack					In clinical phase
	Boneferol liquid weekly					Pharmaceutical development
Pain	Methocarbamol tablets 1 g and 1.5 g					In registration phase
	Dexketoprofen ODT and stick pack liquid					Pharmaceutical development
	Ibuprofen liquid stick pack					Pharmaceutical development

Note: Each molecule may include additional projects not represented for visual simplification.
